Songs from the Shows

Sunday 24th March 2019

Ludgrove Sports Hall

3.30pm

Welcome from the Director of Music

I am delighted to welcome you along to our Charity Choral Concert this afternoon. It has been such fun rehearsing such an enthusiastic group of boys, parents, staff and friends for this event, and I very much hope that you enjoy the fruits of their labours.

This afternoon's programme is essentially a selection of some of my favourite songs from musicals across the decades. Everything from Calamity Jane in the 50s to the most recent hit musical 'Hamilton' – there is something for everyone this afternoon. I'm delighted that some of the boys have stepped up to perform solos as well – and I know you'll be in for a treat when you hear them sing.

We have some superb musical talent here at Ludgrove, particularly amongst our singers, and so it is especially fitting that our singing teacher Jane McEvoy will also be entertaining us all. Huge thanks to Jane for all her work in preparing the boys so brilliantly as well.

The charitable causes we are supporting today make this event even more special. Meningitis is the second largest infectious killer of children in the world, and Place 2 Be provide essential support to schools and young people in terms of children's mental health and wellbeing. Do please dig deep on your way out this afternoon to support these extremely worthwhile causes.

My thanks to all who have supported today's event, whether with their voices, in the band, or behind the scenes setting everything up – I do hope you enjoy the concert.

Gordon Waterson

Programme

An 'Oliver' Medley

...and of course the wonderful parents,
staff and friends who joined us to sing!

About the Charities

Our vision is a world free from meningitis and septicaemia.

We want a world that promises more for people and families at risk of meningitis and septicaemia, and for those already living with the after effects of the disease.

Between 2017 and 2020 we will bring together people and expertise to meet the challenges of meningitis and septicaemia wherever they exist in the world – we are driven to defeat a disease that does not respect people or national boundaries.

Our mission is to enhance the wellbeing and prospects of children and their families by providing access to therapeutic and emotional support in schools, using a proven model backed up by research and training.

With Thanks To...

The Band

Keyboard – Mr Anton Gwilt
Bass Guitar – Mr Jason O’Kane
Drum Kit – Mr Julian Bown

Catering

The Maintenance and Grounds Staff
